Happy New Year to all !

We have set a time and date for the Storm Spotter class. It will be held on Thursday, March 24th, at 7:00 PM It will be held on the third floor of the SIU School of Medicine.

We will have directions for you in early March.

The class is presented by the National Weather Bureau from Lincoln. I do not know who the speaker will be this year, but we have always have great presentations. Hope you will all plan to attend.

We are planning for our next drill. We have tentatively scheduled it for Saturday, July 30th. Details are still being worked out, but we plan to concentrate on Menard County for this exercise.

We plan to be an “all out” event with VHF, HF and digital stations.

Put it on your schedule and we will be sending details as we get closer.

I know it is a bit of a challenge (for me too), but please try to remember our “on air” meetings the second Thursday of each month. They are at 7:00 PM on the 146.685 repeater. Curtis Barmes, and crew, have been hosting the nets the last few months and I know he appreciated everyone checking in.

Thanks to all

Dick KOHMO
